Department of Instrumentation and Control Engineering

Academic Year: 2019-2020 **Semester:** I

**Course Name:** Control System Design **Class:** T.E.

Name of Faculty: Mr. S. B. Lukare

Name of Method: Quiz on Plicker (Plicker's Test)

===

Description: For an Individual students assessment it is necessary to test the knowledge gain by the student during the academic teaching-learning process. Plicker provides an easy way to conduct the quiz (s) for entire class within less amount of time and store the result/data of the individual students.

Click-#1

Click-#2

Impact of Method: It helps the teacher to keep the record of individual student's performance easily and students' shows enthusiasm during test. It promotes the culture of surprising test among the students.

Assessment:
