**About the Workshop**

The aim of this workshop is to train students about AutoCAD 2D & 3D. The AutoCAD enables an engineer to design, and analyse the strength of the building and mechanical objects. It also helps to solve those problems in a simple way. Civil and mechanical engineers used AutoCAD for base map creation. It helps to make better construction and design documentation. In the civil engineering sector, there is always a requirement for expertise in Software. Day by day there are many reforms are taking place in local and Multinational companies. Hence, there is always a need for time to update and upgrade the civil engineers with these scenarios.

**Objective**

- To apply and analyse the knowledge of Auto CAD in engineering education
- To develop an ability among engineering students to demonstrate proficiency in AutoCAD software.
