7th Workshop on Machine Learning and Data Analytics
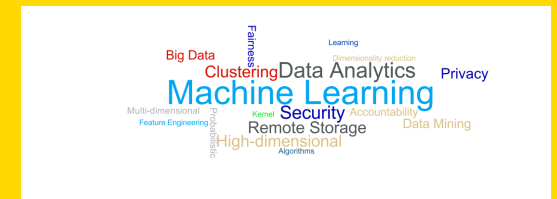

(1st July 2024 − 15th July 2024)

Indian Institute of Information Technology, Allahabad

URL: https://mlda.iiita.ac.in/

Aim of the workshop

This is the sixth workshop in the series and will be conducted online. Workshop will address the basics and recent research work on machine learning, security and data analytics. In addition, the integration of three dimensions will be discussed with its importance and a project. This workshop is to motivate researchers to work in the area of machine learning, data analytics and security.

Objectives of the workshop

Bring academicians, researchers, industry practitioners and students to discuss the importance of machine learning, data mining and security. Provide practical experience on technologies. At the end, a capstone will be given to the participants to encourage the utilization of the learnings.
