Innovative Teaching Methods

Title of Innovation method/activity: Creative Problem Solving

1. Name of Faculty: Ms. T. S. Pawar

2. Subject: Machine Learning

3. Objective of Method:

1. To analyze machine learning task
2. To implement Machine learning model for given task
3. To analyze different learning techniques on same task and comment on it

4. Description of method with Benefits:

Creative problem-solving is breaking down problems to understand them, generate solutions, and evaluate them to find an effective solution. Theoretical material regarding supervised and un supervised machine learning was provided to students in advance on where asked to study implement and analyze real machine learning task and prepare document on the same.

The method Impact:

Each student studied and implements different machine learning techniques on given task. It helped students to analyzing the topic in details, implementing concluding remarks on the same.

Roles and Responsibilities:

- **Teacher**
 - Provision of theoretical material and format to prepare report
 - Prepare assessment methodology

• **Student**

- Search for Machine learning task
- Once topic is selected understand and implement machine learning model.
- Analyze different models and prepare report on it.
- Explain topic while submission of report.

5. Assessment Tools & Rubrics:

Sr. No	Name of Method	Evaluation Criteria	Max. Score	Excellent (100%)	Satisfactory (60%)	Poor (20%)
1	Creative Problem Solving	Understanding and Implementation	10	<ul style="list-style-type: none"> • Good knowledge of the issues, • Complete implementation • Appropriate Answers to Questions. 	<ul style="list-style-type: none"> • Adequate knowledge of the issues, • Partial implementation • Answers questions, but often with little insight. 	<ul style="list-style-type: none"> • Inadequate knowledge of the issues, • Incomplete implementation • Inappropriate Answer
		Report Writing	5	<ul style="list-style-type: none"> • Appropriate content • Proper formatting • Ethical practices 	<ul style="list-style-type: none"> • Less relevant content • Fairly appropriate 	<ul style="list-style-type: none"> • Inappropriate content • No formatting
		Timely Submission	5	<ul style="list-style-type: none"> • Submission within deadline 	<ul style="list-style-type: none"> • Submission within week 	<ul style="list-style-type: none"> • Late submission

6. Evaluation Sheet

Sr. No.	Result Analysis	
1	Total Student Present	69
2	Number of Student Scoring above 60%	69
3	Percentage of student Scoring above 60%	0

7. Impact Analysis:

Questions	3 – Strongly Agree / Excellent	2 – Agree / Good	1- Disagree / Average
Was the creative problem solving activity helpful for improving analytical skills? (PO2)	59	8	0
Are you able to implement machine learning task using different algorithm? (PO3)	53	14	0
Are you able to analyze and interpret results generated by different machine learning algorithm? (PO4)	58	9	0
Are you able to apply contextual knowledge to assess societal, health, safety, legal and cultural issues? (PO6)	55	12	0
Are you able to solve real-world machine learning tasks? (PSO2)	51	15	1
